## IMPRO AI - Musico

### Part 2 - AI generative

► **AI-generative (this guide):** like the “full generative” mode, but with AI-driven original transitions from a *start* bar, to an *end* bar. [requires data connection]

► **Four steps:**

(1) choose start pattern → (2) choose END pattern → (3) choose length of the transition (in bars, measures) → (4) start the interpolation and mix!

**MODE selection**  
Start from here.

**Change App MODE**

**double-tap: enlarge instrument**

**Control Effects**

**Control Volume & Reverb**

**Swipe: next instrument**

**Record your perfect mix!**

**Roll the dice to Change sounds**

**Back to pattern selection panel**

**double-tap: ARPEGGIATOR**

**double-tap: TEMPO panel**

**Arpeggiator controls:** style (up, down, up&down, random), rate (1/16, 1/12, 1/8, 1/6)

**Tempo controls:** bpm (110), swing (0)

**Instrument labels:** drums, drumsCrash, guitar, bass, keys

**Effect labels:** delay, flanger, wahwah, chorus

interpolation pattern start

**1**

interpolation length: (10 measures)

**3**

interpolation pattern end

future

start interpolation

interpolation pattern start

interpolation length: (10 measures)

**2**

interpolation pattern end

tekwave

**4**

start interpolation

Listen to the **PATTERN**

Choose the **START GENRE**

Choose the **END GENRE**

Roll the dice to **Change pattern**

Available on the **App Store**
